

## Mission Statement

The Amanda McPherson Foundation was founded in memory of a little girl cherished by so many. Donations are gratefully accepted and will be directed in several areas. The Amanda McPherson Foundation is committed to supporting both research and education in the fields of Velo-Cardio-Facial Syndrome, a genetic birth defect, and Viral Myocarditis, sudden cardiac death. Further research will lead to better treatment and prevention of these conditions. Athletics, especially softball, were an important part of Amanda's life. In her honor, The Amanda McPherson Foundation will support youth athletic programs in Ventura County, California. In supporting a safe and positive environment for children to play, we hope that for years to come families will enjoy the lessons of teamwork, spirit, and friendship that athletics can offer. Many of the most joyous times in Amanda's life were spent on a playing field. Amanda's Corner is an initiative of the Amanda McPherson Foundation. The foundation will support this educational goal by providing resources and support for children with special needs attending public schools in Ventura County, California. Amanda received support services through her school district beginning at age three and we can directly relate her successes in education with that support. With our support, we hope to provide these students with the tools they need for success.

Please see our web site for our formal mission statement.

## Who Is Amanda?

Amanda was the strongest, toughest, sweetest, most special person we knew. She knew only unconditional love. Amanda battled her entire life. She was born with Velo-Cardio-Facial Syndrome, which included the heart condition, Tetralogy of Fallot. She endured several surgeries until open-heart surgery repaired the Tetralogy of Fallot. The next several years were full of therapy to walk, talk and eat with never a complaint. She only worked harder to reach her next goal. She never gave up and she never gave in. She only achieved, hugged and loved. Amanda's spirit was so strong, she changed everyone she met. If she met you, she hugged you. If she hugged you, you now have her spirit. And if you did not receive one of those hugs, but you read this, you will know of her spirit and soon have it for yourself. This spirit is about love, giving, effort, helping, having courage, and never giving up. Even though Amanda has left this earth, her spirit is with us. With that, her spirit is our guide for the rest of our time here.
